Claims 1-20

The inventions described in claims 1-20 appear to be novel and to involve an inventive step over documents 1-5 cited in the ISR.

Documents 1-5 neither describe nor suggest a compound and production method therefor as described in the claims. In particular, documents 1-5 do not describe the 3-hydrazono-2-hydroxyiminopropionitrile compound represented by Formula (2); nor is this obvious to a party skilled in the relevant technical fields.

The inventions described in claims 1-20 appear to have industrial applicability.
